英語試験問題 解答例

第3問

There are several advantages to getting news from social media. First, it is very convenient. People look at social media often, so they can view current news throughout the day. Second, people can choose to read articles or watch videos online.

On the other hand, there are some serious disadvantages. Since people only see what their friends post, the news they receive is filtered. This can limit their view of the world. Furthermore, it is too easy to post things online. Some of the news on social media may not be true. These problems could have damaging effects on society.
