

令和4年度入試 出題意図

国際コミュニケーションコース

総合型選抜

第1問

英語学習についての自らの考えを、他者に対してわかりやすく英語で伝える力を問う問題。求められていることに的確に答える内容となっているか、アウトラインがわかりやすいか、スペルミスや文法の誤りがないか、英語の表現力があるかを採点の基準とする。

模範解答

There are many ways outside of university or study abroad that young people can develop English communication skills. The Internet has many resources students can use to practice their English, such as streaming sites and social networks. One of my interests is American football, so I use a streaming service to watch the games in English. This helps me learn new English words and expressions related to football. I also use Netflix to watch movies in English, and I have watched all the movies about American football that I could find. In addition I recently joined an American football group on Clubhouse, which is a social network site for online voice chat. I join that a few times a week to practice using the new words and phrases I learn from watching games and movies. Anyone can improve their English this way if they just find a topic that is interesting to them. (153 words)

第2問

日本文化についての自らの考えを、他者に対してわかりやすく英語で伝える力を問う問題。求められていることに的確に答える内容となっているか、アウトラインがわかりやすいか、スペルミスや文法の誤りがないか、英語の表現力があるかを採点の基準とする。

模範解答

Obon, the festival for the dead from August 13 to 15, is the most meaningful one for me, because it reminds me of the meaning of life. In the evening of August 13, my grandmother burned hay so the light could help the dead find the way to their

home. The family alter was decorated with purple flowers. The flower is a symbol of reincarnation, because it grows from the bottom of a pond to the surface as if the dead could climb up to this world. On August 14, my family used to wake up at dawn to visit the temple where my family's ancestors were buried. I remember the refreshing cool air, as the orange glow from the sun began to give life to the fields and the sky. At the cemetery I enjoyed listening to stories about the ancestors, feeling satisfied with knowing why I exist in this world. (152 words)
